

Shadows

Mr. Big

Feel it in the air pressure's on the rise all the way
Nowhere to run nowhere to hide there's no escape
No turning back when you walk the edge you got to find a way
Don't turn your heart just don't this time have no time to waste
e

Shadows on the borderline
Racing with the wind
You're trying somehow turn the time
Do what you can this time
Do what you can this time

Rebells on the run facing down the guns of anger now
Your back's to the wall gotta give it all don't run away
No turning back when you cross the line it's nomansland who cares
Carry it this time and fight for the truth until the very end

Shadows on the borderline
Racing with the wind
Trying to somehow turn the time
Do what you can this time
Do what you can this time

Shadows on the borderline
Racing with the wind
Trying to somehow turn the time
And shake it, shake it all again
Shadows on the borderline
Racing with the wind
Trying to somehow turn the time
Do what you can this time, do what you can
Do what you can this time, do what you can
Do what you can this time, do what you can
Do what you can this time, do what you can
