

# Stop Messing Around

Mr. Big

She used to leave the love-light on  
But I'd come home stumbling in, early in morning  
And I'd smell the perfume, condition red  
That guilty feeling liked to punch me in the chest

I'm breathless, I've been a slave to love  
I've learned my lesson, have mercy on my soul

Get a life, oh get along  
Stop messing around, I'm the one that you love  
Shame on me, shot down in flames, yeah  
Stop messing around, stop messing around  
This time I'm gonna change

I've been walking on a tightrope, catch me if you can  
I'm looking a love affair, so caught me red-handed  
They don't give out medals when you break a woman's heart  
Stop messing around, midnight creeping in the dark

I'm breathless, I've been a slave to love  
I've learned my lesson, have mercy on my soul

Get a life, oh get along  
Stop messing around, I'm the one that you love  
Shame on me, shot down in flames, yeah  
Stop messing around, stop messing around  
This time I'm gonna change

We're all slaves in cities  
Jaded angels with no one else to blame  
Yeah, turn around, put the flame on me  
Stop messing around, oh love

Get a life, oh get along  
Stop messing around, I'm the one that you love  
Shame on me, shot down in flames, yeah  
Stop messing around, stop, hey  
This time I'm gonna change

Stop messing around, I'm the one that you love  
Stop messing around, I'm the one that you love  
Stop messing around, I'm the one that you love  
Stop messing around, I'm the one that you love  
Stop messing around, I'm the one that you love  
Stop messing around, I'm the one that you love  
Stop messing around, I'm the one that you love  
Stop messing around, I'm the one that you love
