You Know My Name

Mr. Capone-e

I've been traveling on this road
I get the feeling it's getting on
I keep moving on, I keep rolling on
Does anybody know my name?
Traveling oh so long
I get the feeling there's something wrong
I keep rolling on, I keep rolling on
Does anybody know my name?
How could you believe when you don't know my name?
How could you believe when you don't know my name?
I see that life is such a simple game
I sit and watch it from my moving train
A bumpy ride today, I'm not alone this way
Does anybody know my name?
Arrested in '69
For upsetting a tourist guide
Well, pay the fine or jail, I just smiled and said
That I'm oh so glad to be alive
How could you believe when you don't know my name?
How could you believe when you don't know my name?
How could you believe when you don't understand?
