

## Meet the Frownies

Mr Twin Sister

Smoking weed with you  
In the leaves, in the fall  
In the yard with your dog, till the winter came  
I smoke with you, cuz you've taught me to

To pass the time, in your living room  
And I want it with you, so you'll show me  
How you do find, me amusing, amusing  
Before your shift

Talking with you, in your bed I saw

Your face turn red when I said what I want  
Getting you to talk, to hear your ideas  
So shy to my friends, even shy to me  
And I do believe in what you tell me  
How you do find me amusing, amusing  
Before your shift  
Same thing today, the leaves changed again

In your yard, your room  
No reason to leave here soon
