Hear me now
You say you don't know the meaning of love anymore
It's because you never loved someone like me before
You don't have to worry girl when I'm on tour
Cause no other girl can't take away what's rightfully yours, no

If I get you girl, it's forever
Me nah diss you girl, no no never
If I get you girl, it's forever
Picture me and you together

Can you identify my love

I gave you all that I am
Keep you safe and secure
You nah go find another man weh love you more
Can you identify my love

Tell you bout

Tell me why you so attracted to the one that's always doing you wrong
I try to be your superman to save you from the pain
But you gave me no attention

All I want is a one chance inna your life
To show you that you make the right decision
