Tell me how  
How to live on the edge of my seat  
Teach me how  
How to stand on my own two feet  
Cause I'm tired of falling and I was a fool  
You taught me that love is a game without rules  
Tell me how  
How you'd like to walk in my shoes  
Teach me how  
How to look on the bright side of life  
Tell me how  
How everything will be alright  
Cause the whole world is changing  
And I'm standing still  
Small talk and stories are making me ill  
Tell me how  
How to believe in myself  
Cause I'm just a kid and I want to fit in with the crowd  
Mother and father, I just want to make you prud  
Maybe it's time that I  
Grow  
Grow  
I'm too scared and the water's too cold to jump in  
Mother says dear no one's ever been ready to live  
Maybe you just have to  
Grow  
Grow  
Grow
