

Some Days

Mree

Why does it hurt
Just being awake, some days?
You're holding your breath
Waiting it out
For something to change
Turn off the lights
Go back to bed
Keep it inside
You're safe when you hide
Away in your mind

The morning breaks
And you're already empty
You tried to make
Everyone happy

(On and on, you just can't get it right)
Is everyone happy?
(On and on, you just can't get it right)

You say that you're fine
But you laugh when you lie
There's got to be more
But now you're not sure
Just give it time

The morning breaks
And you're already empty
You tried to make
Everyone happy

(On and on, you just can't get it right)
Is everyone happy?
(On and on, you just can't get it right)

Wanna feel
(Go on, take your time)
Wanna feel like that
Wanna home
(Go on, take your time)
Wanna home like that
