

# To See the Light

Mree

All we know  
What we're told  
You wanna know, you wanna know me  
You wanna hold, you wanna hold me  
You wanna love, you wanna love me  
You wanna love  
You wanna use, you wanna use me  
You wanna hurt, you wanna hurt me  
You wanna break, you wanna break me  
You wanna break  
Gonna see the light  
Shining in your eyes  
Frozen in the night  
Gonna see the light  
Soul of gold  
Settle where you roam  
Wandering in and out of the light  
Speak of the dark but never in night  
Echoing your losses  
I wanna find the beat that moves you  
Into the dew that morning brings to  
Shake you from your shoulders  
Wake you from your slumber
