You Are

Mree

You, you look like an angel
You look like an angel, tonight

You, you look like an angel
You look like an angel, tonight

But I know, I know that they lie
Saying the world spins on its side
Cause I'm only aligned with your eyes

You, you speak like an angel
And you sound like an angel
When you sing

You, you talk like an angel
And you sound like an angel
When you sing

But I know, I know that they lie
Saying the moon is pulling the tide
Cause I am only aligned with your eyes

Thank, thank God for gravity
For pulling you back to me
So I'll write it all down
And I'll sing it all out
For the world to see

But you, you are an angel
To me
