

## A New Hour

Mr.Kitty

Everyday  
A sadder face  
New hiding place  
Something to chase  
A week has passed  
My wounds won't heal  
Remember when  
The pain was real  
Everyday  
A sadder face  
New hiding place  
Something to chase  
A week has passed  
My wounds won't heal  
Remember when  
The pain was real

I want to die alone tonight  
Please do not try to save me  
Walking away from the bright light  
Darkness will come to take me  
I want to die alone tonight  
Please do not try to save me  
Walking away from the bright light  
Darkness will come to take me

Eyes are closed  
Refuse to dream  
A silent scream  
Beneath the stream  
A month has passed  
Reopened wounds  
I sink below  
To pleasant doom  
Eyes are closed  
Refuse to dream  
A silent scream  
Beneath the stream  
A month has passed  
Reopened wounds  
I sink below  
To pleasant doom

I want to die alone tonight  
Please do not try to save me  
Walking away from the bright light  
Darkness will come to take me  
I want to die alone tonight  
Please do not try to save me  
Walking away from the bright light  
Darkness will come to take me

I want to die alone tonight  
Please do not try to save me  
Walking away from the bright light  
Darkness will come to take me  
I want to die alone tonight

Please do not try to save me  
Walking away from the bright light  
Darkness will come to take me  
I want to die alone tonight
