

Anguish

Mr.Kitty

Into a form my skin will fade
After the storm the white air stays
It covers the house to keep them inside
The water sounds as my feet glide

It ends right here if you go away
All your memories become an object
It ends right here if you go away
Like my father did, don't leave me crying
It ends right here if you go away
All your memories become an object
It ends right here if you go away
Like my father did, don't leave me crying

To be confined I'm kept secure
What's happening is not to me
I'm out numbered by those who feel
I wonder how it's like to be real

It ends right here if you go away
All your memories become an object
It ends right here if you go away
Like my father did, don't leave me crying
It ends right here if you go away
All your memories become an object
It ends right here if you go away
Like my father did, don't leave me crying

It ends right here if you go away
All your memories become an object
It ends right here if you go away
Like my father did, don't leave me crying
It ends right here if you go away
All your memories become an object
It ends right here if you go away
Like my father did, don't leave me crying
