

Bleed Black

Mr.Kitty

We lived our lives in black
We lived our lives in black
We lived our lives in black
We lived our lives in black

You're gonna die
You can't stop now
The more you do
The less you feel

It's not enough
They pulled you in
But it's a lie
You cannot heal

Open your eyes
Take your meds
Go back to sleep
Then wake up dead

Nothing is wrong
Too late to change
You can't escape
Can't help you now

They'll lift you up
Throw you down
All senses fail
Into the ground

Open your eyes
Take your meds
Go back to sleep
Then wake up dead
