

Chainsaw

Mr.Kitty

I saw a face in the mirror
What does it want from me?
As if I'm meeting a monster
Destroying everything
Your body lay here beside me
Still as the blood-stained blade
You rev the motor to find me
You're never gonna give up

My love is like a chainsaw for you
I just wanna tear you apart
Every little thing that you do
Running like the blade in my heart
My love is like a chainsaw for you
I just wanna tear you apart
Every little thing that you do
Running like the blade in my heart

Inside the nightmare I'm living
As if my days have passed
You create the fear and the terror
I thought you'd never ask
The scent of gasoline lingers
As long as you're still here
You chase what you love
And kill what you fear

My love is like a chainsaw for you
I just wanna tear you apart
Every little thing that you do
Running like the blade in my heart
My love is like a chainsaw for you
I just wanna tear you apart
Every little thing that you do
Running like the blade in my heart

I hear the motor rev
I smell the gasoline
I hear the motor rev
What do you want from me?
I hear the motor rev
I feel the chain repeat
I hear the motor rev

My love is like a chainsaw for you
I just wanna tear you apart
Every little thing that you do
Running like the blade in my heart
My love is like a chainsaw for you
I just wanna tear you apart
Every little thing that you do
Running like the blade in my heart
