

Choke

Mr.Kitty

From stories high, I stand alone
Ingesting pills to lose control
I close my eyes, my patience thinning
Nobody listens to what I'm saying
My sorrows flooding my vital mind
My body weightless, I take the dive

Crystallised
My lungs were frozen, exhale my last breath
Demise
I'll close my eyes and sleep forever

For lack of words, my mouth is numb
Easy for most and hard for some
Show them your teeth, choke them will burden
I was so young, my understanding
Was that you'd help me, not take my head
Open your mind and close the curtain

Crystallised
My lungs were frozen, exhale my last breath
Demise
I'll close my eyes and sleep forever

Crystallised
My lungs were frozen, exhale my last breath
Demise
I'll close my eyes and sleep forever

Crystallised
My lungs were frozen, exhale my last breath
Demise
I'll close my eyes and sleep forever
