Mr.Kitty

Your face makes me smile  
Only for a short while  
Am I in denial?  
For this time is final  
Your faces makes me smile  
Only for a short while  
Am I in denial?  
For this time is final

I want you, I want you, I want you alone  
I want you, I want you all to myself  
I want you, I want you, I want you alone  
I want you all to myself  
I want you, I want you, I want you alone  
I want you all to myself  
I want you, I want you, I want you alone  
I want you all to myself

What will I do?  
When all of this is through  
I don't know how to  
We'll find out real soon  
What will I do?  
When all of this is through  
I don't know how to  
We'll find out real soon

I want you, I want you, I want you alone  
I want you, I want you all to myself  
I want you, I want you, I want you alone  
I want you all to myself  
I want you, I want you, I want you alone  
I want you all to myself  
I want you, I want you, I want you alone  
I want you all to myself
