From Liquid

Mr.Kitty

In my time alone I died a million deaths
A gaze into the glass to memories I have kept
They show me who I've been, the people I have hurt
I lay myself to sleep, my power will emerge

Don't you ever cry for me
You could never tell me you're sorry
Get me far away from here (From liquid I'm drowning)
As my body leaves a void
Fill it up with memories that I've destroyed
Burden me with hate and love (From liquid I'm choking)

I used to have a heart with pain I never felt
I tried to fall apart for damage I have dealt
Through the broken glass my kingdom underneath
The mirror looking back, a monster made of me

Don't you ever cry for me
You could never tell me you're sorry
Get me far away from here (From liquid I'm drowning)
As my body leaves a void
Fill it up with memories that I've destroyed
Burden me with hate and love (From liquid I'm choking)

Get me out of here
Get me out of here
Get me out of here
Get me out of here

Don't you ever cry for me
You could never tell me you're sorry
Get me far away from here (From liquid I'm drowning)
As my body leaves a void
Fill it up with memories that I've destroyed
Burden me with hate and love (From liquid I'm choking)
Don't you ever cry for me
You could never tell me you're sorry
Get me far away from here (From liquid I'm drowning)
As my body leaves a void
Fill it up with memories that I've destroyed
Burden me with hate and love (From liquid I'm choking)
