

## Greater Than Us

Mr.Kitty

In my world born from the dark  
All the lights don't know my name  
But the land sees through my heart  
And the oceans understand me

How I wish I could be found  
See what lies beyond this world  
In the end I'm left alone, alone, alone again

Don't give up, we will make it through  
Hold your ground, I'll be next to you  
Close your eyes, let your heart lead you  
It's our time, show them what you're made of

From your world made from the light  
I can see you looking in  
All around I feel your warmth  
I have never been so happy

When you stand close next to me  
Everything seems to be clear  
Both our worlds begin to be, to be, to be complete

Don't give up, we will make it through  
Hold your ground, I'll be next to you  
Close your eyes, let your heart lead you  
It's our time, show them what you're made of  
...
