

## Habits

Mr.Kitty

At night I travel  
My nerves unravel  
It hurts to hide myself from you  
With care I held it  
Inside I felt it  
My favorite pain comes back to me

Don't break me  
Don't let go  
Don't try to leave  
Let your habits control you

These blades I'm hiding  
Keep safe the tidings  
Of bridges crossed that soon collapsed  
No fear of falling  
Endlessly calling  
You make me feel like I'm alone

Don't break me  
Don't let go  
Don't try to leave  
Let your habits control you  
Don't break me  
Don't let go  
Don't try to leave  
Let your habits control you  
Don't break me  
Don't let go  
Don't try to leave  
Let your habits control you
