

Hurt

Mr.Kitty

I was baptized into fire
Burning with your pain and desire
Your god is my noble liar
In time, you'll hurt and live inside her

As you fall into your habits
I won't catch you
Let me know when you have had it
With all I've been through

Heaven held me closer than home
When I vanished into the unknown
Others told me I had outgrown
My mind, my soul, I lost all control

As you fall into your habits
I won't catch you
Let me know when you have had it
With all I've been through
As you fall into your habits
I won't catch you
Let me know when you have had it
With all I've been through
As you fall into your habits
I won't catch you
Let me know when you have had it
With all I've been through
