

# I Lost You

Mr.Kitty

Into the dark, it's all around  
I've got a plan, you go alone  
We're side by side, we'll be alright  
To make this right, go to the light

All that I do is never right, why am I trying?  
It's give and take, soon I will break, can we stop fighting?  
Though I am strong, the glass around my heart is shattered  
Before you leave, I'll hit the ground as if it mattered

The moment's cold, I need you most  
What I don't know, just please come home  
I need to fight on frozen nights  
Where did you hide and do what's right

All that I do is never right, why am I trying?  
It's give and take, soon I will break, can we stop fighting?  
Though I am strong, the glass around my heart is shattered  
Before you leave, I'll hit the ground as if it mattered
