

Immurement

Mr.Kitty

Take a look at me inside the glass
Tell me what you see behind the mask
Take a look at me with blurry eyes
Erase the purity encased in lies

Immure me, kill me from inside
Immure me, I've got nothing left to hide
Immure me, kill me from inside
Immure me, I've got nothing left to hide

Take a look at me - my guard is down
Did you ever think I'd wear the crown
Don't get close to me, you mustn't touch
My fragility an ailing crutch

Immure me, kill me from inside
Immure me, I've got nothing left to hide
Immure me, kill me from inside
Immure me, I've got nothing left to hide
