

In Loving Memory

Mr.Kitty

Nervously losing my sanity
I want to bring you back to life
Calmly letting my heart break
Please wait for me to reach the light

Your voice brings comfort to me
I'm waiting, come back to me

No sleep leaves me trembling
Around me everything is strange
Tearing me at the seams, I can't breathe
I'll make the world forget my name

Your voice brings comfort to me
I'm waiting, come back to me

I'll make the world forget my name
I'll make the world forget my name
I'll make the world forget my name
I'll make the world forget my name

Your voice brings comfort to me
I'm waiting, come back to me
