

# Inhale, Exhale

Mr.Kitty

Rub the salt in my wounds  
This is what I've done to you  
You left because you were not strong  
Don't hold your breath, I won't be long

Inhale exhale  
Poison fume  
Precious cancer  
Inside you

Inhale exhale  
Magic dust  
We are strangers  
You can trust

Broken glass below my feet  
I will not admit defeat  
The sun burns deep into my eyes  
I will not give in to lies

Inhale exhale  
Poison fume  
Precious cancer  
Inside you

Inhale exhale  
Magic dust  
We are strangers  
You can trust
