Labyrinth

Mr.Kitty

Blessed with a curse inside a labyrinth
Escaping here's not on my mind
Our memories gone
I wish you hadn't followed the ghost
You fell behind

The walls will hold me in a vicious trap
This maze will kill you in your dreams
Come with me
The walls will hold me in a vicious trap
This maze will kill you in your dreams
Come with me

Three eyes will see that you're not sleeping
The mirrored walls are closing in
We found the girl, what is she keeping?
A shining stone to cut glass thin

The walls will hold me in a vicious trap
This maze will kill you in your dreams
Come with me
The walls will hold me in a vicious trap
This maze will kill you in your dreams
Come with me
The walls will hold me in a vicious trap
This maze will kill you in your dreams
Come with me
The walls will hold me in a vicious trap
This maze will kill you in your dreams
Come with me
