Mr.Kitty

I had it all it caved on me  
We gave the world to be  
By now you know this heart will bleed  
To the unknown for me

In the comfort you create  
Do you wish to be contained  
Something new conceived through mesh  
We desire another flesh

I had it all it caved on me  
We gave the world to be  
By now you know this heart will bleed  
To the unknown for me

At intervals we will shed  
Our hollow shells it's life and death  
Flowers bloom, I haven't seen  
New mutations inside of me

I had it all it caved on me  
We gave the world to be  
By now you know this heart will bleed  
To the unknown for me
