

My Head Hurts

Mr.Kitty

Therapy, got no time for my mind
Forgetting what I write, tongue-tied, I tie my shoes
Tripping over words when I'm running after you
I know you're not a God, but they look just like you
Close my eyes, our spirits dance every night
Just say your mind, and tell me where to run to
Bullet through my mind, I'm like your favorite writer
I'll tell you that I'm fine, but you know that I'm a liar, right?

I wanna die
My head hurts
I'll take a pill
Everything will be alright
I wanna die
My fuckin' head hurts
I'll take a pill
Everything will be alright
I wanna die
My head hurts
I'll take a pill
Everything will be alright
I wanna die
My fuckin' head hurts
I'll take a pill
Everything will be alright
I wanna die
My head hurts
I'll take a pill
Everything will be alright

25/8, extra hour, extra day
I do what I want, and I do it in my own way
In the indigo night, I will always lose my mind
But I'm gonna find a way to get higher than the sky
Every memory fades, I don't remember my name
Nothing was ever the same, a legend with no [?]
Two-faced people look the same
In your mirrors I will gaze
At the heart of 3:00 A.M
I'll do it all over again

I wanna die
My head hurts
I'll take a pill
Everything will be alright
I wanna die
My fuckin' head hurts
I'll take a pill
Everything will be alright
I wanna die
My head hurts
I'll take a pill
Everything will be alright
I wanna die
My fuckin' head hurts
I'll take a pill
Everything will be alright
