

Nightmare

Mr.Kitty

Behind a screen
They tell me who I need to be
Why do I care about my identity?
All that I need is some clarity
Of the lines in between
The words I haven't said (Words I haven't said)
The things I haven't seen (Things I haven't seen)
The words I haven't said (Words I haven't said)
The things I haven't seen

I'm locked in a nightmare
Gotta be out of here
I don't wanna fucking be here
I'm locked in a nightmare
Gotta be out of here
I don't wanna be here
I'm locked in a nightmare
Gotta be out of here
I don't wanna fucking be here
I'm locked in a nightmare
I don't wanna be here
I don't wanna be here

Although I'm perfect through the pixels
That you see, that you see, see, see
A twisted romance in the wires of technology
I'm giving my past
I'm leaving, I'm learning
On my flesh and my bones
In the world I no longer need
No longer need

I'm locked in a nightmare
Gotta be out of here
I don't wanna fucking be here
I'm locked in a nightmare
Gotta be out of here
I don't wanna be here
I'm locked in a nightmare
Gotta be out of here
I don't wanna fucking be here
I'm locked in a nightmare
I don't wanna be here
I don't wanna be here

I'm locked in a nightmare
Gotta be out of here
I don't wanna fucking be here
I'm locked in a nightmare
Gotta be out of here
I don't wanna be here
I'm locked in a nightmare
Gotta be out of here
I don't wanna fucking be here
I'm locked in a nightmare
I don't wanna be here
I don't wanna be here
