

Parasite

Mr.Kitty

Night and day
So close you stay
I gave you blood
They're not replaced
To cut you off
I feel the terror
Of letting go
To fix an error, to make it fairer

It's not your world
You shouldn't be here
I know it hurts
When there's no control
Take over me
Against my will
You're a parasite
You're a parasite
It's not your world
You shouldn't be here
I know it hurts
When there's no control
Take over me
When there's nothing left
You're a parasite
You're a parasite

My heart will die
You can take it
Set you on fire
I no longer care
You won't caress
I miss your care
Without the stress
You're nothing more than this
You don't feel [?]

It's not your world
You shouldn't be here
I know it hurts
When there's no control
Take over me
Against my will
You're a parasite
You're a parasite
It's not your world
You shouldn't be here
I know it hurts
When there's no control
Take over me
When there's nothing left
You're a parasite
You're a parasite

You're a parasite
You're a parasite
You're a parasite
You're a parasite

You're a parasite
You're a parasite
You're a parasite
You're a parasite

It's not your world
You shouldn't be here
I know it hurts
When there's no control
Take over me
Against my will
You're a parasite
You're a parasite
It's not your world
You shouldn't be here
I know it hurts
When there's no control
Take over me
When there's nothing left
You're a parasite
You're a parasite
