

Puzzle Heart

Mr.Kitty

Be not broken I have a puzzle heart
Left unsolved I pray you tear it apart
It's fulfillment my dark abysmal start
All my nightmares show my eternal pain
Devastation eating away my brain
With no victims who can I really blame?

Twisting, turning, I am searching high and low
Locks and keys prevent me from letting go
Through this maze discover my failing heart
Did you make it out? Please, tell me how
Twisting, turning, I am searching high and low
Locks and keys prevent me from letting go
Through this maze discover my failing heart
Did you make it out? Please, tell me how

Try to fight it, It's a confusing maze
Wall to wall a paranoia keeps you sane
Look at all the demons I have hid away
I can't help you I'm off and gone again
At my core I know it is not the end
All my ailing turn to oblivion

Twisting, turning, I am searching high and low
Locks and keys prevent me from letting go
Through this maze discover my failing heart
Did you make it out? Please, tell me how
Twisting, turning, I am searching high and low
Locks and keys prevent me from letting go
Through this maze discover my failing heart
Did you make it out? Please, tell me how

Twisting, turning, I am searching high and low
Locks and keys prevent me from letting go
Through this maze discover my failing heart
Did you make it out? Please, tell me how
Twisting, turning, I am searching high and low
Locks and keys prevent me from letting go
Through this maze discover my failing heart
Did you make it out? Please, tell me how
