Torment

Mr.Kitty

Made into the image of your liking
Maybe if you fix me then you'll like me
A replica to curate for acceptance
To fill a void with love you disappear in

So crystal clear that you wanted perfection
A servant disguised under hollow affection
Every moment and thought you'll inherit
You already know this (reset me and own it)

I'll miss the rage, I'll miss the hate
The misery you brought to me
I suffocate, I give you take
Keep me inside an empty cage

You'll agitate, you'll irritate
Dance on my nerves into the grave
You got your way, you hear me say
You shall remain tormenting me

You are not the villain when we're fighting
You don't really care about what I think
When I break away from disillusion
Enlightened that I'm here for retribution

I was addicted, it tasted like honey
So reminiscent to think that it's funny
Running away would be so unbecoming
You got what you wanted (don't act like you want me)

I'll miss the rage, I'll miss the hate
The misery you brought to me
I suffocate, I give you take
Keep me inside an empty cage

You'll agitate, you'll irritate
Dance on my nerves into the grave
You got your way, you hear me say
You shall remain tormenting me

Tormenting me
You shall remain tormenting me
