

Unreal

Mr.Kitty

Inside I have all of the answers
I've got everything except the time
Find out I'm trapped inside a system
That tries to make me feel alone at times
I've gone with those who've gone before me
Like the sky, my heart is getting clearer
Flew right to the arms of the creator
Came back with the wings I learned to try

Everything is so unreal
I don't wanna go home
I don't ever really wanna feel
Like I never really had a choice
So I'm hanging with the voice
Living inside of my head
Everything is so unreal
I don't wanna go home
I don't ever really wanna feel
Like I never really had a choice
So I'm hanging with the voice
That's living inside of my head

I'm glad we were disconnected
I thought this would be the end for me
I'm the heir to a throne of disillusion
Took the crown, made it into a ring
Our future made for evolution
For the ones in places left behind
My failure found a resolution
Rebuild all time has taken away

Everything is so unreal
I don't wanna go home
I don't ever really wanna feel
Like I never really had a choice
So I'm hanging with the voice
Living inside of my head
Everything is so unreal
I don't wanna go home
I don't ever really wanna feel
Like I never really had a choice
So I'm hanging with the voice
That's living inside of my head
