

# Unstable

Mr.Kitty

You hold my hand, the hours dark  
From where I stand I'll make my mark  
Don't hold me back with softened talk  
The way I act will hurt your heart  
Please listen close to what I say  
The hours light a brand new day  
Sometimes I fall harder than most  
I can't control my violent ghosts

You're unstable  
You're unable to control me  
No unfold me  
You're unstable  
You're unable to control me  
No unfold me

A heavy hand to hold me down  
It's all I need  
So stand your ground  
My fragile bones cease to desist  
Intentions known I won't resist  
Attention close  
Don't close your eyes  
Dismantle you  
Cut through your lies  
Leave me alone, I'll be ok  
A softer tone will get your way

You're unstable  
You're unable to control me  
No unfold me  
You're unstable  
You're unable to control me  
No unfold me

You're unstable  
You're unable to control me  
No unfold me  
You're unstable  
You're unable to control me  
No unfold me  
You're unstable  
You're unable to control me  
No unfold me  
You're unstable  
You're unable to control me  
No unfold me  
You're unstable  
You're unable to control me  
No unfold me  
You're unstable  
You're unable to control me  
No unfold me  
You're unstable  
You're unable to control me  
No unfold me
