

## White Tiger

Mr.Kitty

I've fallen from the sky  
Only to protect  
Notice my third eye  
The vision is direct

You are the math  
I need to learn  
You are the taste  
I need to test

When days are dark  
Friends are few  
Bad days will end  
With the likes of you

You're my mistake  
I've given up  
I'm yours to take  
I've lost all hope

We will never know  
We will never know  
We will never know  
We will never know

We will never know the answers  
We will never know the truth  
We will never know the answers  
We will never know the truth  
We will never know the answers  
We will never know the truth  
We will never know the answers  
We will never know the truth
