

Dear You,

mrlD

You're everything a kid could ask for
Though I know that you hate my gut sometimes
You give me everything I ask for
Though I know that you're getting pretty tired
But you try

What would I do
If it weren't for you
Yeah, I'll be dead by now
'Cause you know that I'll drown
From all of the hate
That I get every day
But you saved me from death
And I thank you for that
So much

You're my everything
And I love, yeah I love you so
Please don't ever leave
Or else I'll be all alone

And I can't picture life without you
Just the thought of it already makes me cry
And probably you cry alone or in disguise
I can't help you. For that, I apologize
But I'll try

What would I do
If it weren't for you?
Yeah, I'll be dead by now
'Cause you know that I'll drown
From all of the hate
That I get every day
But you saved me from death
And I thank you for that
So much

You're my everything
And I love, yeah I love you so
Please don't ever leave
Or else I'll be all alone

What would I do
What would I do
What would I do if to weren't for you

What would I do
What would I do
What would I do if it weren't for you

You're my everything
And I love, yeah I love you so
Please don't ever leave
Or else
