

# Brother

Ms. Dynamite

When we were young life was so unjust  
At times I felt it was just us  
Mumma workin' hard 2 put food on the table  
All on her own she sacrificed  
Even when my sisters and brothers died  
Somehow she stayed strong I never saw her cry  
I was the oldest and responsibility  
was so immense, the tension, we'd disagree  
So I left cos at the time I felt she hated me  
U told me to be strong  
Told me 2 hang on hugged me tight  
And said big sister it'll be alright

Brother I love ya  
Little brother I thank god 4 you every day  
Little brother I love ya  
Little brother and I pray he'll never take u away

When my soul withered and I lived in the dark  
An emptiness it filled my heart  
U never stopped holdin' me up never stopped  
tryin' 2 open me up  
The days n nights I spent stressin'  
The years I spent in depression this is my confession  
thought bout endin' it sometime  
But the second that u crossed my mind  
I knew I could never leave u  
Made me believe  
U set me free  
2 this day all I say and do I owe it all 2 u

Brother I love ya  
Little brother I thank god 4 you every day  
Little brother I love ya  
Little brother and I pray he'll never take u away

Ooh I would lie 4 u, cry 4 u,  
Ride or die 4 u,  
Touch the sky 4 u,  
If u ask me 2  
Theres nothin' I won't do  
I took this life 4 joke  
I would drink and smoke  
2 ease away the pain  
And forget the memories in my brain  
But u helped me 2 stop the rain  
Oh brother brother

Brother I love ya  
Little brother I thank god 4 you every day  
Little brother I love ya  
Little brother and I pray he'll never take u away

Brother I love ya  
Little brother I thank god 4 you every day  
Little brother I love ya  
Little brother and I pray he'll never take u away
