

A Night To Remember

MSG (Michael Schenker Group)

You kept me running
But you just kept on comin
Rock n rolls in my soul
A true believer
I did not deceive you
I found the strength of my own

Evaluating, situations elevating
Can't celebrate now
Life's for the taking
Still my heart is breaking
I've gotta win this somehow

I've been working night and day now
My finger's too the bone
But now I've come home

Make this a night to remember
There's passion, and glory, there's pain
Let's make it a night to remember
Cos I'm back on the road once again

I'm no illusion, lost in this confusion
Stop making me out
My best intentions
Now you fail to mention
Is what this story about!

Evaluating, situations elevating
Can't celebrate now
Life's for the taking
Still my heart is breaking
I've gotta win this somehow

I've been working night and day now
My finger's too the bone
But now I've come home

Make this a night to remember
There's passion, and glory, there's pain
Let's make it a night to remember
Cos I'm back on the road once again
