

Alive

MSG (Michael Schenker Group)

When all your dreams are hangin on the edge
When all the walls come down
Can't see a way through the madness of the day
Look to the power above
There's something greater out there
Open up your heart
He is the answer to the struggles found in front of you

Alive in the arms of mercy
A greater love you'll never find
Safe in the arms of mercy
Waited so long

When you're coming up short of abundance that you seek
You feel like you're all alone
Can't find escape from the emptiness in side
You've got to let it all go

There's something greater out there
Open up your heart
He suffered on that cross for each and every one of you

Alive in the arms of mercy
A greater love you'll never find
Safe in the arms of mercy
Waited so long

You're overloaded and hangin by a thread
When all your wells have run dry
Can't see a way through the madness of your life
Look to the Savior above

There's something greater out there
Open up your heart
He is the answer to the struggles found in front of you

Alive in the arms of mercy
A greater love you'll never find
Safe in the arms of mercy
Waited so long

Alive in the arms of mercy
A promise of eternal life
Safe in the arms of mercy
Waited so long
