

Blinded By Technology

MSG (Michael Schenker Group)

Way back in the days of new
There used to be a way to get it through
It marked the dawning of an age
But if you look today you won't find it

It's been tightly locked away
All the big boys - they won't let it play

Even though they brought it on themselves
The mighty tyrant spreads it's wrath
Upon the human race
"Never give the faithful ones a chance"
They lived by in disgrace

Nevermind true talent
And the ones with tortured souls
They ain't gonna make the man a buck
Or two a million fold

Blinded by technology
You know who you are
You can hold us down
But you'll never take what I've got

Inside of me
I'm gonna sing it to you now
Inside of me

Next time around
Gonna put you in your place
You're gonna pay the price
For such a big disgrace

Next time around
We ain't gonna go easy
Big money world - it come down
It come a-crashing down on you
Come a-crashing down on you
Come a-crashing down on you

Come a-crashing down on you
Gonna come a-crashing down

Next time around
Gonna put you in your place
You're gonna pay the price
For such a big disgrace

Next time around
We ain't gonna go so easy
