Come Closer

MSG (Michael Schenker Group)

Bad news kick in the teeth
You know how to get to me
Sad songs, I wrote too much
How soon will you have enough

Well I've been around the world from LA to Tokyo
Flew a million miles always putting on
The show
I got this fever burning, burning in my soul
Resurrection through affection
Never let me go

Behind the mask your'll never see
The other side of the man that's me
Start to scream, scream in hell
I give you another piece another tale to tell

Come closer
Let me explain the reasons why
Do you know what I don't know
Why don't we give one more try!

Over the top ready or not
I've gotta plan give it all I've got
I see a clear new horizon
Next page for you to write on

Come closer
Let me explain the reasons why
Do you know what I don't know
Why don't we give one more try
Come closer!
