

## Danger Zone

MSG (Michael Schenker Group)

She owns the night, owns the hearts, steals the souls  
Taking it all, seems we fall, lose control

We're into this nightmare  
Our senses full awake  
A chain and a lever  
There's no escape

I was the one that she picked and I'm under her spell (I was the one)  
She's calling me, calling me

Into the night, I'll follow my calling  
I guess there's no one here at home, sleeping alone  
In the danger zone

She comes alive every night in my dreams  
The fight to survive, trying to hide, feel just mean

We're into this nightmare  
Our senses full awake  
A chain and a lever  
There's no escape

I was the one that she picked and I'm under her spell

Into the night, I'll follow my calling  
I guess there's no one here at home, sleeping alone  
Into the night, I'll follow my calling  
I guess there's no one here at home, sleeping alone  
In the danger zone

Into the night, I'll follow my calling  
I guess there's no one here at home, sleeping alone  
Into the night (Into the night), follow my calling  
I guess there's no one here at home, sleeping alone
