

Fallen The Love

MSG (Michael Schenker Group)

Fallen the love we had

Should've seen her coming from a mile away
It was the fire that she had within I saw
Now all I have is blackened days
Yeah she took me down the hard way

All I could want
Everything I hoped for
No way I could be blind
Here it comes again
Same old story every time

Woah, Lord
How long

Fallen, the leaves are grey
Well I tried and tried to get her on the phone
Cuz I'm sick and tired of bein' all alone
Well I played her game I got a losing hand
Yeah, she dropped me short of the promised land

Woah, Lord
How long
Fallen the leaves are grey
What was so wrong?
How can it be?

Slippin' - Slidin' - Moving back and forth
Gotta leave this town - gonna head up north
She's a stone cold lover and it's easy to see
Hard luck woman make a fool out of me

Woah, Lord
How long
Fallen the leaves are grey
What was so wrong?
How can it be?
Fallen, the love
Fallen, the love we had
