I'm Gonna Make You Mine

MSG (Michael Schenker Group)

The day that you came to me
Was the day that changed my world
Those memories are sadder now
Was I to know it would go wrong

No I didn't leave you
But we gotta get back somehow
Never deceived you
So stop running away

I never want to hear you say
I was living out a lie
I'll always want to hear you say
I want you I need you
I never thought I'd find
Someone who will always be there
You know I'm gonna make you mine

You said you'd come back again
I never knew exactly when
Never could accept the pain
All the time I took the blame

I want you I need you
I never thought I'd find
Someone who will always be there
You know I'm gonna make you mine [x2]
