

## It's You

MSG (Michael Schenker Group)

Yeah, standing right in front of me  
Looking happy as can be  
Hypnotized by her glowing eyes  
Not realized 'til later, it's you

Hmm, I meet her at the exit door  
Asking what she's coming for  
She said I love you so full of joy  
And that was it, my heart was lit, it's you

Come together, love forever, sleep until the morning  
Wake up in the morning light, being there with you  
Love forever, come together, sleeping through the night  
Awaken in the morning light, being there for you  
For you

Yeah, ever since we became a pair  
Traveling together everywhere  
Wondering how could it be  
So late in life we meet finally

Come together, love forever, sleep until the morning  
Wake up in the morning light, being there with you  
Love forever, come together, sleeping through the night  
Awaken in the morning light, being there for you  
Yeah

It's you, oh  
Hypnotized by her glowing eyes  
Not realized 'til later, it's you

Come together, love forever, sleep until the morning  
Wake up in the morning light, being there with you  
Love forever, come together, sleeping through the night  
Awaken in the morning light, being there for you  
For you

Yes, for you, whoa  
Oh, for you  
Yes, for you  
Whoa  
Yeah, yeah, yeah

Yeah, baby, it's you
