

## Life Vacation

MSG (Michael Schenker Group)

Gonna take you far away a life vacation  
Riding on the wings of black tonight  
Magical the place the lights out numbered  
To a place we always realized

Take you to a place out on the island  
Take you on a boat across the sea  
Familiar place where no one knows our faces  
Take you where you've always longed to be

No one knows us here anymore  
The past is lost and here's no more  
Walls of steel

Keeping me from you  
Battle's over due  
Keeping me from you  
Am I'm running out of fuel

Got a feeling that we both could use another break  
Gotta leave before our minds escape

We'll dance in the moonlight baby  
This time's become a dangerous place  
Leave tonight and we'll be elated  
Give it up and we'll lay down in the fire

Gonna take you far away a life vacation  
Riding on the wings of black tonight  
Magical the place the lights out numbered  
To a place we always realized

No one knows us here anymore  
The past is lost and here's no more  
Walls of steel  
Walls of steel

No one knows us here anymore  
The past is lost and here's no more  
Walls of steel
