

# Long Long Road

MSG (Michael Schenker Group)

Try to find some peace on a sleepless night  
Forget about the bad times  
Don't go lock yourself away  
Leave your sorrows way behind

You know love is a game, a game for fools  
Without any borders, without any rules  
It's a ying yang thing, you are in when you're out  
Let go

I tell you once that it's over  
All your wounds gonna heal  
(Honey, I know how you feel)

It's a long, long road  
But it will have a happy ending  
For your heart will mend  
Though the destination's unknown  
Someone else waits all alone  
Who will satisfy all of your needs  
On this long, long road  
Long, long road

Sometimes it is better to burn down all the bridges  
Before the past finds you  
(Before the past finds you)  
As soon as you get over, over the ridge  
A ray of light will shine through

All our life is a heartache  
But we need to survive  
(Keeping alive)

It's a long, long road  
But it will have a happy ending  
For your heart will mend  
Though the destination's unknown  
Someone else waits all alone  
Who will satisfy all of your needs  
On this long, long road  
Long, long road

It's a long, long road  
But it will have a happy ending  
For your heart will mend  
Though the destination's unknown  
Someone else waits all alone  
Who will satisfy all of your needs  
On this long, long road  
Long, long road
