The Last Supper

MSG (Michael Schenker Group)

Moonlight and candles
At midnight's the feast
We sit round the table
Listening to the beast
Glasses are ringing
Give a toast, salute the host

I never posed the question
Which way to go, didn't care if it's right
I always followed my intuition
With the speed of light

So many dreams that crashed to the ground
A dance on the blade when all hopes falling down
So many lies on our way to the top
Tho' you tumble never drop
Here we are at the last supper

The magic's still in us
We fought thru' the years
In good times and bad times
With smiles and with tears
On this last supper
We'll unite, we will survive

We, we came - we saw - we conquered
We filled your souls with love and delight
And we brought the rock to your life
It's still so deep inside

So many dreams that crashed to the ground
A dance on the blade when all hopes falling down
So many lies on our way to the top
Tho' you tumble never drop
Here we are at the last supper

So many dreams that crashed to the ground
A dance on the blade when all hopes falling down
So many lies on our way to the top
Tho' you tumble never drop

So many dreams that crashed to the ground
A dance on the blade when all hopes falling down
So many lies on our way to the top
Tho' you tumble never drop
Here we are at the last supper
