

# The Mess I've Made

MSG (Michael Schenker Group)

I have faith in love  
For a long time it was gone  
Maybe it's catching up with me  
I may not have you  
But I've got this day to share  
No longer in the deep cold summer freeze

And if I never make it back  
Remember that I love you babe  
And the sun is still shining down on you  
I may be home tomorrow  
I may be another year  
Sweet darlin what a mess I've made

Ramblin and traveling  
Ever since I've known  
Where the road's been always good to me  
That's where I met you  
Some things will never change  
Sometimes it's the only place I can never get some peace

I've been waiting for the sun to shine  
And it's finally sneaking through  
What's missing is your touch  
And your loving ways  
Sweet darling what a mess I've made  
What a mess I've made  
Look at the mess

There's an aching in my heart since we've parted  
And it's crying only out for you  
Oh my love  
Meet me down the road
