

Yesterday Is Dead

MSG (Michael Schenker Group)

I've turned into another maniac
Can feel the monkey sitting on my back
I need a vision now to make believe
Everything will turn out fine

Global media's into overkill
Guess at least we gotta pay the bill
Hear the reaper's knocking at the door
The sinking world, once so divine

When all the chips are down
We have to stick around

Yesterday is dead
It's full speed ahead
Tell me what you're thinking
Will we float or are we sinking

Mirror, mirror hanging on the wall
Will we rise, or will we ever fall?
Who is knowing what tomorrow brings?
The end of days is what it sings

While all the other sheep just stand in line
I fill my glass with pleasure, sipping wine
I raise a toast now to the ship of fools
Who thought they'd live outside the rules

When all the chips are down
We have to stand our ground

Yesterday is dead
It's full speed ahead
Tell me what you're thinking
Will we float or are we sinking

Whoa-oh
I've turned into another maniac
Can feel the monkey sitting on my back
I need a vision now to make believe
Everything will turn out fine

Yesterday is dead
It's full speed ahead
Tell me what you're thinking
Will we float or are we sinking

Yesterday is dead
It's full speed ahead
Tell me what you're thinking
Will we float or are we sinking
