

Another Night On My Side

Mt. Desolation

Little valentine
We've been losing our way
Lately
Love has cut adrift
On a sea with no waves
I've got a heavy heart
I've got to lighten my load
Baby
I'm a planet just spinning out of control

Baby can you turn the tide
Another night on my side
Baby can you turn the tide on me

I remember when we would always come first
Sweetheart
Then ambition came
Stealing in like a thirst

I guess I'll turn out the light
Another night on my side
Baby can you turn the tide on me

You want your old life
You want the innocent fire
Well I've been thinking of the same things
Like back when love was still wild

Maybe we could go
Maybe we could go home
Darling
Take another go
'Cause life is rough on your own

I'm hurting but I've got my pride
Another night on my side
Baby can you turn the tide on me
Please turn the tide on me
