

Platform 7

Mt. Desolation

Well the train is now standing on platform seven
Is the 10:28 from hell to heaven
But I took a wrong turn and went to platform three
and now I'm heading straight off to purgatory

It's just the way my life has always been
It's really just the way it's always been

Well my daddy said :,,son, you've got a heart of gold!
but it won't buy you shelter from the rain and cold,,
So I took a good job but my boss went bust
Now I'm searching for my supper in the dirt and dust

It's just the way my life has always been
It's really just the way it's always been

But far from home I may wander on my own
Lost and down on luck
I'll return knowing that my heart has grown
just from missing you

Well I met a nice girl and we settled on down
Now I feel like the luckiest guy in town
Some things'll go wrong now and again I guess
But it's just the way the world spins more or less

It's just the way my life has always been
It's really just the way it's always been

But far from home I may wander on my own
Lost and down on luck
I'll return knowing that my heart has grown
just from missing you

But far from home I may wander on my own
Lost and down on luck
I'll return knowing that my heart has grown
just from missing you
